ABOUT US

We opened our doors September of 2015 with the mission to offer affordable dance and arts education classes in Harlem, NYC. We've had hundreds of students come through our doors finding a safe, creative and vibrant community of people who not only love the arts, but want to make a difference in the world. Today, we continue to do just that as we work towards our dreams of opening more locations and programming to raise up the next generation of leaders through the arts.

WHY CHOOSE US

Your students are important and we want to come alongside the values of your school and use the arts to truly impact every child's life. Our program is not just about getting the dance steps right, it's about learning life lessons through the process. This develops leadership skills alongside creativity and gives students the opportunity to shine in ways beyond the classroom.

OUR PROGRAM

TECHNIQUES

Your choice of Ballet, Musical Theater, Hip Hop, Jazz, Latin, Fitness, Creative Movement and more! All classes will be taught with a holistic approach to arts education and provide a project based theme. Students will experience how they can use the arts to make a difference in the world. Themes and curriculum will vary per grade level.

CULMINATING PROJECT

In collaboration with your school, we will decide on a final performance or project. Projects could be performing at a nursing home, food/clothing drives, raising money for a passion project, performances, student showcase, music video or other community service projects.

PROGRAM ELEMENTS

In addition to dance and arts training, students will also develop skills in composition. At every age level we incorporate activities that are designed to develop leadership skills, cultural awareness, collaboration, goal setting, creativity and social, emotional and physical health.

GRADES/AGES

Ages: PreK through 12th Grade
